

Second Chance Centers

FIVE-YEAR ANNIVERSARY

THREE LOCATIONS, ONE GOAL

Comprehensive employment readiness services are provided to justice-involved job seekers during and after incarceration to prepare them for success in Arizona's workforce.

HOLISTIC PREPARATION

To thoroughly equip participants for successful reentry, they learn both hard and soft workforce skills, as well as resume, job search, and interview techniques. They participate in job fairs, enroll in healthcare, and are connected to housing, clothing, and transportation resources.

FIVE YEARS OF SUCCESS

A total of 5,094 participants have successfully completed the Second Chance Centers reentry program over the past five years.
